Navi Mumbai, Maharashtra

Dec 2024 – Feb 2025

- Completed 2-month in-house internship on full-stack development using React and backend integration by building real-time E-Commerce project.

SKILLS

Technical - HTML, JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Python

Non-Technical - Teamwork, Time Management, Critical Thinking, Self-Motivation

PROJECTS

Restaurant Website

- Created a responsive restaurant website with dynamic menu and special dish management using the MERN stack, enabling easy updates through an admin dashboard.

E-commerce Website

- Created a complete e-commerce solution with customer interface, backend, and admin dashboard, enabling product management, order tracking, and user authentication, using MERN stack and secure REST APIs.

Packers & Movers Website

- Created a responsive website with organized service categories, clean navigation, and an easy inquiry system, ensuring a smooth and reliable experience for users exploring relocation services.

Yuva Savera Website

- Created a simple and user-friendly web platform focused on youth empowerment, featuring clean sections for awareness content and community engagement, designed for easy access across all devices.
