PROFESSIONAL SUMMARY

Computer Science engineer with hands-on experience building full-stack web applications using React.js, Node.js, and MongoDB. Skilled in understanding business requirements and translating them into working technical solutions. Comfortable working across the full project lifecycle, from gathering requirements to deployment and handoff. A team player who communicates clearly, adapts to new problems quickly, and takes ownership of work.

TECHNICAL SKILLS

Frontend: React.js, HTML, JavaScript, Tailwind CSS, Redux

Backend: Node.js, Express.js, RESTful APIs, MongoDB

Tools & Databases: Git & GitHub, Firebase, SQL, Cloudinary

Analytical & Communication: Requirement gathering, stakeholder coordination, documentation, problem solving

EDUCATION

SIES Graduate School of Technology

B.E. Computer Science Engineering | CGPA: 9.17/10

– Relevant Coursework: Web Development, Database Management Systems, Software Engineering

Mumbai, Maharashtra

2022 – 2026

PROFESSIONAL EXPERIENCE

Candor International

Web Developer Intern

Remote

Dec 2025 – Feb 2026

- Understood existing codebase structure and reorganised it to improve maintainability and readability across the frontend.
- Implemented 4–5 seasonal theme updates including promotional banners, discount offers, and new product listings based on business requirements.
- Identified and fixed inconsistent colour theming across all pages and ensured UI elements were fully mobile-responsive.

Rajni Tech Foundation

Web Developer Intern

Remote

Jul 2025 – Oct 2025

- Built a full-stack donation and community platform for a social-tech NGO, working from requirements through to final handoff.
- Designed a mobile-first UI and structured MongoDB collections to support donation and campaign data.
- Coordinated with stakeholders over a 4-month engagement to understand requirements and deliver features accordingly.

KEY PROJECTS

E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Redux

- Built a full-stack e-commerce store across 4 product categories with multi-filter search, cart management, and checkout flow.
- Implemented Redux for global cart state and a separate cookie-authenticated admin panel with Cloudinary image uploads.
- Link: herstyle-ecommerce.vercel.app

Restaurant Website | React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack site for a USA-based restaurant with 6+ dynamic menu categories and an interactive carousel.
- Link: zaika.us.com

Travel Booking Platform | React.js, Tailwind CSS, Firebase

- Developed a Firebase-backed travel platform listing 5–10 destinations with detailed trip pages.
- Link: tripkart-nine.vercel.app

CERTIFICATIONS & TRAINING

- **Google Cybersecurity** – Cybersecurity principles, threat detection, and risk management.
- **Deloitte Data Analytics Job Simulation (Forage)** – Practical tasks in data analysis and forensic technology.
- **Responsive Web Design (freeCodeCamp)** – HTML, CSS, and responsive design principles.

ADDITIONAL EXPERIENCE & ACHIEVEMENTS

- **Class Representative** – Facilitated communication between students and faculty; supported academic environment.
- **Creative Head** – Led creative direction for events; designed content and visuals for enhanced engagement.
- **Research & Publication** – Co-authored “NFT Based Ticketing System,” accepted for the 2026 2nd International Conference on Information, Implementation and Innovation in Technology (I2ITCON).
